Truth in Packaging?

Of course! Americans demand it and their laws require it in most products they buy—certainly in those that are ingested. In the mid-1970s, Oregon winemakers drafted and had passed into law the nation's strictest consumer-oriented wine labeling regulations. These regulations combined with those of the federal government assure the consumer of Oregon wines that what is written on the label is indeed what is contained in the bottle.

These regulations remain, like the wines, unique!

1. The trademark reflects the style of the company making the wine and is essentially its signature.
2. A vintage date indicates that at least 95 percent percent of the grapes used were harvested during the year stated.
3. The appellation, a statement of geographic origin, is mandatory for varietally labeled wine and all of the grapes used must come from the region named.
4. The name of a wine can be varietal (containing at least 90 percent of the grape variety named, with the exception of Cabernet Sauvignon, which is traditionally blended). By comparison, federal regulations require only 75 percent.

The name of a wine can also be proprietary, or privately owned, coined by the owner to describe the contents. No Oregon-produced wine may be given a generic name. That is, it may not be called by European geographic names such as Chablis, Rhine or Burgundy.

5. The label must carry the name and location of the winery producing the wine therein.

6. Percentage of alcohol indicates the type of wine. Table wines are permitted to range between 10 percent and 14 percent alcohol.

HILLCREST VINEYARD Roseburg

1982 White Riesling

1982 Gewurztraminer

Hillcrest Gewurztraminers are light, dry, spicy and delicate enough to accompany food. The 1982 is fragrant, light in fruit, and crisp. Very clean finish, with true varietal flavors and elegance. Overall impression is one of freshness. Excellent with light curries, pepper-spiced foods, and chicken dishes. Perfect with Chinese food!

1982 Pinot Noir (Early Release)

Early Release Pinot Noir is designed as an opportunity to economically sample the forthcoming vintage. Intensely cherry flavored and very delicious. Because it lacks significant barrel aging, it lacks the complexity of Hillcrest's normal Pinot Noir wines. But it is a very forward and fruity wine, easily enjoyed.
